PROFILE SUMMARY

Software Developer with experience in designing and developing scalable web applications. Strong foundation in software engineering, data structures, algorithms, object-oriented programming, and database management. Committed to building reliable and efficient software solutions.

SKILLS

Programming Languages: Java, Python, PHP, HTML5, CSS3

Frameworks & APIs: Spring Boot, CodeIgniter, JSP, Servlets, RESTful APIs

Databases: MySQL, PostgreSQL

Tools & IDEs: Git, GitHub, Postman, Visual Studio Code, Eclipse IDE, NetBeans

Core Concepts: Data Structures and Algorithms, OOPS, DBMS, Computer Networks, SDLC, Agile Methodology.

WORK EXPERIENCE

Mica Educational Co. Pvt. Ltd.

Software Developer

June 2026 - Present

- Engineered and maintained 5+ business modules using PHP, CodeIgniter 4, Java, Spring Boot, and MySQL.
- Designed 10+ RESTful APIs and implemented backend features for scalable applications.
- Maintained 10+ application performance by troubleshooting issues and optimizing existing features.
- Integrated WhatsApp APIs, payment gateways, and AI chatbot solutions.
- Tech Stack: PHP, CodeIgniter 4, Java, Spring Boot, MySQL, PostgreSQL, REST APIs

Bluestock Fintech

Software Developer Engineer Intern

June 2025 - August 2025

- Designed an IPO dashboard displaying multiple 50+ IPOs daily, improving market data accessibility.
- Implemented 10+ RESTful APIs with Spring Boot and PostgreSQL, reducing data latency.
- Collaborated in Agile teams with Git, improving sprint efficiency.
- Tech Stack: Java, Spring Boot, REST API, Hibernate, PostgreSQL | IDE: IntelliJ IDEA

EDUCATION

Amity University Jharkhand

B.Tech in Computer Science and Engineering - CGPA - 8.43

June 2022 - June 2026

Geeta Science Inter College, Hazaribagh

Intermediate in Science - 79.8 %

April 2020 - April 2022

PROJECTS

Sorting Visualizer and Analyzer [🔗](#)

- Created a tool to animate and compare sorting algorithms such as Bubble, Merge, and Quick Sort.
- Simulated 300+ sorting visualizations to demonstrate algorithm execution and performance in real time.
- Optimized rendering and multithreading, reducing UI rendering delay by 30%
- Tech Stack: Java, Swing, AWT | IDE: Eclipse

TalentTrack – Job Discovery Platform [🔗](#)

- Automated job tracking through dashboards and email notifications, streamlining application management and improving workflow efficiency.
- Built secure authentication and admin dashboards for multiple user roles.
- Reduced manual job tracking time by 40% using dashboards and email alerts.
- Tech Stack: HTML, CSS, JavaScript, Java, JSP, Servlet | Database: MySQL

CERTIFICATE

Database Fundamentals By Infosys Springboard

Java Basic Certification By HackerRank

Software Engineer Intern By HackerRank
